

INTRODUCTION TO PHOENIX MEDICS

PROFECIONAL MEDICS

“NOTHING LEFT TO CHANCE”

PHOENIX EMERGENCY MANAGEMENT INC.

I would like to take this opportunity to introduce Phoenix and show how we differ from medic companies.

Phoenix works with the people on site to ensure an effective medical response team is available.

- Phoenix provides training to key site personal to develop them into emergency responders: First Caller, First Aid Helpers, Drivers, Helicopter Crew, Lifting and Loading Crew.
- Phoenix provides brief (tool box meeting) refresher first aid training on key lifesaving procedures to all site personnel; ensuring an injured or sick worker receives immediate lifesaving assistance until the medic arrives.
- All training is tested, remedial training provided and documented.

Phoenix hires only mature, experienced professional medics.

Our Mobile Treatment Centers are Tufport or Travelair units; industry leaders in quality and safety with roll over protection. They are new units, impeccably maintained, and stocked surpassing provincial standards.

All medics are supported by our 24/7 Medical Director, a physician specialising in emergency care in remote operations; and all treatments are reviewed by the medical director.

Approach to Providing Service

Phoenix conducted Gap Analysis at client's sites and listened to the challenges associated with medics and medic companies and then developed solutions for the problems.

Typical medic companies provide a medic and a generic ERP. At Phoenix we ensure the Medical ERP meshes with the sites ERP and that everyone involved with executing the Medical ERP has training and can perform the required tasks. This is Site Emergency Management, nothing is left to chance.

Phoenix developed programs that allow the medic to interact professionally with the crew; you have the opportunity to experience their skills, knowledge and abilities, instilling confidence and trust, prior to an emergency event. There are numerous positive outcomes: a medic that is busy and engaged in their profession, a crew and medic that have become a cohesive effective emergency response team with tested and proven skills; document using professionally developed and executed man down drills.

Phoenix's selects only **experienced, mature skilled, highly motivated, fit and drug tested Medics**. Then provides considerable training so they can implement our programs, followed up by on site coaching by Phoenix's owner and rotating site managers ensuring impeccable quality service.

PHOENIX EMERGENCY MANAGEMENT INC.

Phoenix is owned by a 28 year veteran of the Fire/Ambulance service, a career Fire Chief and Regional District Emergency Coordinator employs two managers with equal qualifications and professionalism; that's why and how we provide **complete professional emergency management and medical services.**

Phoenix Provides training for site personnel - **refresher first aid training, team emergency response training** and professionally designed and delivered man down drills;

- **the primary contact for the client, is the owner of Phoenix**, whom also conducts field inspections, **any required changes can be made immediately**;
- documented **fire safety inspections** of well site accommodations, smoke, CO and propane detectors, fire extinguishers, emergency exits and lighting;
- **on site drug and alcohol screening**;
- **Mobile Treatment Centers** that are response ready **surpassing industry/provincial standards**;
- medical operations are overseen by a **Medical Director**, a Physician specialising in emergency care in remote operations;
- **Enform Certificate of Recognition (COR) and an "A" rating with ISNET World.**
- **Incorporated** in B.C. and Alberta with worksafe, vehicle and liability insurance in both provinces.

We love assisting clients overcome their medical services challenges and providing the next generation of medical services. I have always believed, "it's not what you do, **it's how you do it**" that's important, please allow us the opportunity to show you, how we do it, you won't be disappointed.

Thanks for considering Phoenix

David Matteucci – Owner.
